

G-88 Line

ANSI

Fiber Backing. For metal polishing operations where heavy polishing and aggressive cutting is required, plus increased strength and high heat resistance.

GRADE AVAILABILITY

016 024 036 040 050 060 080 100 120

EXTRA COARSE / COARSE / MEDIUM
HEAVY GRINDING

Backing High-strength vulcanized fiber.

Mineral Premium Aluminum Oxide.

Grades ANSI: 016, 024, 036, 050 to 120.

Coating Closed.

Applications

- For sanding hard wood, such as for deburring or preparing and cleaning, for dirt removal on nonferrous metals or removing previous damaged or good paint, for treating surfaces and preparing for application of coating epoxies.
- For heavy polishing and intermediate finishing operations.
- For removing defects in metal plates or scratches from previous processes .
- For preparing wood or laminated surfaces.

Characteristics

- Long shelf life.
- High resistance and flexibility.
- Open structure prevents clogging.
